#### **DETAILED ACTION**

- 1. This Office Action is the answer to the communication received on 03/08/2004.
- 2. Claims 1-18 are pending in this application wherein claims 1-9 are canceled.

### **Drawings**

3. The submitted drawings (03/08/2004) are accepted for examination purposes.

## Claim Rejections - 35 USC § 112

- 4. Independent claim 1, is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01.
- A. As to claim 1: in this method claim, the omitted step of how to control a vehicle, the claim only cites a linking between abstract components: regulation and control functions (please note that there are numerous of these "linkings" in a vehicle; further, the applicants do not specify what are these specific components that "interlink" together, this is very unclear just explain that these regulation or control functions are defined by graphs containing nodes and directed gridlines does not help to clarify this vague claim.
- B. As to dependent claims 11-18, it is unclear to represent functions and variables with different characters, applicants only cite an abstract idea of "interlink" of these characters without explaining "how, when, what, why" about a step of controlling a vehicle.

#### **Conclusions**

5. The prior art made of record, which are listed in PTO-892, and not relied upon are considered pertinent to applicant's disclosure.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to CUONG H. NGUYEN whose telephone number is 571-272-6759. The examiner can normally be reached on 9:00 am - 5:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, THOMAS G. BLACK can be reached on 571-272-6956. The Rightfax number for the organization where this application is assigned is 571-273-6759.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).

Please provide support, with page and line numbers, for any amended or new claim in an effort to help advance prosecution; otherwise any new claim language that is introduced in an amended or new claim may be considered as new matter, especially if the Application is a Jumbo Application.
